Welcome Back to School!!!

High School:

Students involved in the Early College Program have started their college classes this week. They will also travel to the college on Thursday for their first meeting with an instructor. They will leave the high school at 8:00, and arrive back around 1:30.

Grade School:

Middle School Volleyball Coach Still Needed- An ad for this coaching position was placed in the Times-Journal for two weeks in late July and early August I believe, and another one was placed a couple weeks ago. No one has come to the school for an application for this position. So we are sending this out in one more attempt for a parent or community member to come forward with an interest to coach middle school volleyball. Please call the school and ask for Cody Martin or Ron Kopp if you are considering this.

K-8th GRADE BACK TO SCHOOL NIGHT..... Join us for a brief parent meeting, hot dog BBQ, and classroom walk-through on Wednesday September 6th from 5:30- 7:00 p.m. at the Condon Grade School

District:

As we start into a new year, Condon School District just wants to remind parents/guardians of the counseling services provided and/or available in the school.

Condon School District provides a variety of counseling supports for students. This may include in-classroom guidance lessons, presentations, one-on-one and group counseling for social/emotional issues, career counseling, etc. These services are provided by school-based mental health counselors employed by Community Counseling Solutions.

If you do not wish your student to receive these services, please inform the school, in writing, of your wishes. Please note that, in the event of an emergency situation, counselors may respond pending the arrival of emergency responders.

If you have any questions about the counseling program, please contact Katie Hams at the school.

BE SAFE, BE RESPECTFUL, BE RESPONSIBLE
